

WWS100

High-Flow Wedge Wire Solutions

Wedge wire is a versatile solution for drainage, screening and wash-down applications. Its high open-area design allows liquids to flow efficiently through the surface, delivering excellent drainage performance while effectively screening unwanted material.

Product Code: WWS100

Wire Profile: 3mm wire x 5mm gap

Height: 9.2mm

Grade: 304 Grade Stainless Steel

Sheet Size: 1210mm x 1050mm

Top profile: 1210mm (length)

Support bars: 1050mm (width)

**Sold in full sheets only not made to measure*
